MUAZ KHALID

Full Stack Engineer | Frontend Specialist | Mobile App Developer

+92 331-6534630 | muazkhalid936@gmail.com | LinkedIn | GitHub | Lahore, Pakistan (Open to Remote)

PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with 3+ years of experience designing, building, and shipping production-grade web and mobile applications for international clients. Specialized in React.js, Next.js, TypeScript, and React Native. Strong track record of owning end-to-end project delivery from architecture through CI/CD deployment across B2B/B2C marketplaces, logistics platforms, food-tech platforms, and AI-powered applications. Experienced working independently in remote, asynchronous environments.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, Tailwind CSS, GSAP, Framer Motion, HTML5, CSS3, JavaScript (ES6+)
Mobile:	React Native (Expo), Flutter, Supabase, Stripe Payments, Role-Based Navigation
Backend:	Node.js, Express.js, MongoDB, PostgreSQL, MySQL, Prisma, Socket.io, RESTful APIs
DevOps:	GitHub Actions, Docker, Docker Compose, CI/CD Pipelines, Vercel, Git, AWS (EC2, S3, Lambda)
Other:	LLM Integration (OpenAI / Anthropic APIs)

WORK EXPERIENCE

Full Stack Developer (Remote) | Codev Digital *Jun 2024 – Present*

- Promoted from intern to full project ownership within 3 months; independently driving delivery of 4–5 concurrent client and internal products, including PetDen (multi-vendor pet marketplace) and DinePals (food discovery platform).
- Architected and shipped scalable Next.js web applications with performant UI, backend integrations, and production-grade CI/CD deployments on Vercel.
- Collaborated cross-functionally with designers and product managers on feature design, implementation, and post-launch maintenance.

Full Stack Developer (Remote) | Zaylo Solutions *Apr 2024 – Dec 2025*

- Built 3 production applications end-to-end (Taxtilla, RigSnap, Foretold) as the sole developer, owning frontend, backend, and deployment independently.
- Engineered a B2B textile marketplace with multi-supplier proposal flows, role-based access (Admin/Customer/Supplier), and automated contract generation.
- Developed a React Native logistics app with real-time chat, Stripe payment integration, and trucker/service-provider role flows.

Frontend Engineer | ATechSole *Oct 2023 – Apr 2024*

- Developed responsive React.js and Next.js applications; promoted from intern to full engineer within the same engagement.
- Implemented GSAP and Framer Motion animations across multiple projects, significantly improving user engagement and interaction quality.

KEY PROJECTS

PetDen – Multi-Vendor Pet Marketplace | *Next.js, TypeScript, Node.js, Express, MongoDB, Stripe*
Pet e-commerce marketplace with multi-step seller store onboarding, admin brand/product approval workflows, customer pet profiles, and Stripe-powered checkout.

DinePals – Food Discovery Platform | *Node.js, React, Next.js, React Native*
Full-stack food platform with mobile app, REST API, React admin dashboard, and Next.js partner portal with analytics and booking flows.

RigSnap – Logistics Mobile App | *React Native, Supabase, Stripe*
Cross-platform mobile app for truckers and service providers with real-time chat, job request/accept flows, and secure Stripe payment processing.

ProjeXpert – Project & Team Management Platform | *Next.js, TypeScript*
Smart project and team management platform for companies to manage employees, assign projects, and track tasks, with per-employee performance, spending, and earnings views.

Medical Admin Dashboard | *Next.js, Tailwind CSS, Node.js, MongoDB*
Hospital management system with drag-and-drop scheduling, real-time updates, and multi-department operation room management.

Codehive – Agency Portfolio | *Next.js, GSAP, Framer Motion, Three.js*
Animated site for a Dubai-based software house with complex scroll animations and interactive 3D models showcasing services and case studies.

AllMyAI – All-in-One AI Workflow Platform | *Next.js, GSAP, Framer Motion, LLM APIs*
AI workflow platform where a single prompt drives specialized agents (image/video creation, SEO, UI/UX design, software development, branding) to take an idea from concept to a launched product.

The Style App – Personal Stylist Mobile App | *React Native, Next.js, Node.js*
Subscription styling service connecting users with professional personal stylists for wardrobe and outfit guidance, backed by a Next.js admin dashboard for stylists and operations.

DEVOPS & CI/CD

- Configured GitHub Actions workflows for automated testing, linting, and multi-environment deployment pipelines.
- Containerized applications using Docker and Docker Compose for consistent dev and production environments.
- Deployed production applications via Vercel and AWS (EC2, S3, Lambda) with branch preview environments and production gating.
- Proficient in Dockerfile authoring, multi-stage builds, and container orchestration fundamentals.

EDUCATION

B.Sc. Computer Science | GPA: 3.06 / 4.0 | University of Engineering and Technology (UET), Lahore *2022 – 2026*
